

A new twist on bottles

With the innovative *TST* cap, JAB Companies has created a low cost and effective solution for health, energy and flavored beverage products.

Sizes: 38mm 8gm content
52mm (R &D)
28mm 4gm content
Dual Cavity (Prototype)
Multiple Colors

Designed to deliver maximum nutrient and ingredient effectiveness in any type of standard plastic bottle, the cap's chambered delivery system releases contents into the bottle with a quick, simple twist. Followed by a shake and another twist to unscrew the cap, the consumer has an instant beverage ready to drink.

The cap allows the consumer to produce key ingredients at the exact time of consumption, thereby maintaining product freshness, potency and shelf life. As versatile as it is easy to use, the *TST* cap has many potential uses:

- Juices
- Carbonated drinks
- Seltzers
- Nutritional beverages
- Energy drinks
- Vitamin enriched drinks
- Herbal supplements
- Fluorides
- Pharmaceutical liquids
- Medications (Malaria, Tuberculosis, Calendula)
